

Discovery Process eXcellence

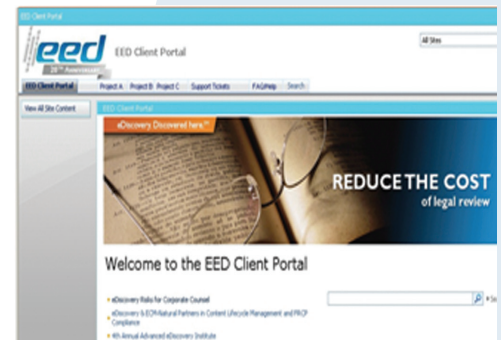

Secure client portal for improved end-to-end eDiscovery management

Discovery Process eXcellence (DPX) is a web portal for managing eDiscovery projects and delivering superior client service. DPX gives clients quick and easy access to the information they need to track eDiscovery projects. With DPX Daticon EED clients can:

- Create work requests, directly track progress
- Enhance project team communication
- View real-time project status
- Ensure deadlines are met
- Improve decision making ability

DPX together with Daticon EED's other offerings including eDiscovery process consulting services, Discovery Partner® for processing and review, and eDiscovery Process Manager (eDPM) provides a unique solution to reduce eDiscovery cost and risk.

DPX combines enterprise business process management software with a portal interface for complete, effective eDiscovery project management. DPX is an easy-to-use project dashboard that enables litigation support personnel and managers to view real-time status reports, make project requests and interact with Daticon EED project managers. The portal provides self-serve access to key services, timelines, and more. DPX marks a new level of eDiscovery project management and client service.
